## Copper Basin Bible Camp Update

While the camp has been closed for normal camping activities this summer, many maintenance projects have been undertaken to continue the improvement of the camp. A repair and upgrade to the water system has been completed which installed many new valves. These valves will allow for leak locating and easier repairs in the future. Additionally, the main storage tank is also being repaired.

The Fire Wise project has now been completed, and the final cleanup is underway. This has generated a large amount of firewood to be split and sold this fall.

We look forward to being able to schedule events next spring and get back to more normal operations. We will need some work weekends to get fully prepared.

Next summer, we plan to have a new cabin ready as well as the first pond sealed and stocked for fishing.

We are currently searching for a Caretaker Couple for Copper Basin Bible Camp. If you, or someone you know is interested, please contact us via the information on page 2 of the newsletter.

## Caretakers' Corner

### Copper Basin Bible Camp House Renovations

For the past few months, one of the projects we have been working on is a second bathroom and room addition to the log cabin caretaker house. We converted the laundry/utility room into a bathroom/laundry room and have enclosed the carport to make another bedroom and den/office. To fund the majority of this project, I went to work to solicit donations from various businesses in the Prescott and Phoenix area. The following businesses were very generous donors:

**Prescott Block Company, Dakota Logging Company, Prescott Window and Door Company, Home Depot, Creekside Flooring, Foxworth Galbraith, Lowe's, Prescott Glass and Mirror, Cali Bamboo Company** (out of California), and **Mega Furniture**.

**The donations' total value was over \$8,000.**

A special thanks to Jesse, Mick, Chad, and Dave Carlson (from our neighboring camp) who have donated their time to help work on the project.

Also, we had several water valve leaks throughout the camp and a crack in the water storage tank. We had bids of over \$30,000 to do the repairs. Dave Carlson, Richard Carlson, and Kevin Allen from the camp next door donated countless hours of their time and heavy equipment to do all the repairs. Our total cost was for parts alone which was under \$1000.00. We owe a huge thank you to these guys.

I'm sure I have left out some donors, but all in all the donations for doing these projects have been incredible. Thanks to all mentioned.

-Joe Bridges

If you are interested in the efforts at Copper Basin Bible Camp, have a question, or would like to make a donation, please email the Board of Directors at the following address:
